Hello, everyone. My name is David Parker, and I'm a photographer. Today, I'm going to tell you how I found my dream and realized it. I hope my story can inspire you.

When I was young, I loved stars. I also liked taking pictures. However, I never thought these things could lead to a job. In fact, I didn't have a dream at all. When I had to decide on a major in college, I chose engineering. Being an engineer looked OK. After college, I got a job at an engineering company. It was a stable job, but I didn't know whether I really enjoyed it.

Everything changed when I went on vacation to Iceland one winter. There I got a chance to see the Northern Lights*. The lights were amazing, and I took many pictures of the dancing lights in the sky. For the first time in many years, I could feel my heart beating fast.

After I came back, I entered a photo contest with the pictures I took in Iceland. Surprisingly, I won first prize, and this gave me a chance to think about my life. I realized that taking pictures made me happy. Suddenly, I wanted to become a good photographer, so I started to learn more about photography. After years of trial and error, I got better, and I began to do some part-time work as a photographer.

Then one day, I made a bold decision. I quit my job and decided to take pictures for a living. I wasn't sure if I could succeed, but I decided to try. I really wanted to do something that made me happy. Now, I'm a professional photographer, and I'm happy.
